

# Youcef Abderrahmane Bounabi

+213 664 415 589 | youcefbounabi@gmail.com | Blida, Algeria

## PROFESSIONAL SUMMARY

Multilingual Software & Full-Stack Developer and technical operations specialist with an advanced academic background in linguistics (Master's candidate, C2 English). Experienced in designing, developing, and deploying robust applications across C#, .NET, C/C++, JavaScript (ES6+), and Python. Builds responsive web portals, high-throughput RESTful APIs, desktop applications, and automated business pipelines. Integrates front-end interfaces with back-office databases, cloud webhooks, and 24/7 conversational communication systems (WhatsApp, telephony APIs, CRM sync) to streamline operations and eliminate manual administration. Combines rigorous software engineering principles with frontline operational resilience, conflict resolution, and international service standards.

## CORE COMPETENCIES

Software Engineering & Object-Oriented Design (C#, .NET, C/C++, Data Structures & OOP)

Full-Stack Web & Backend Development (JavaScript/TypeScript, HTML5, CSS3, REST APIs, SQL)

Systems Integration & Workflow Automation (Webhooks, Cloud APIs, Database Pipelines, Telephony/AI)

Linguistic Precision & Global Operations (C2 English, Native Arabic, Localization, Technical Docs)

## WORK EXPERIENCE

### Web & Software Solutions (Freelance / Client Projects)

2024 - Present

#### Software & Full-Stack Developer

Remote

- Architected and deployed responsive client portals, interactive web applications, and desktop utilities using modern JavaScript (ES6+), HTML5/CSS3, and C# (.NET).
- Engineered backend services and RESTful APIs in C# / ASP.NET and Node.js, integrating SQL databases and webhooks to eliminate manual data entry and synchronize business data in real time.
- Developed low-level and algorithmic modules in C/C++, applying strong memory management, object-oriented design, and performance optimization.
- Built automated 24/7 customer inquiry, scheduling, and sales pipelines connecting messaging platforms (WhatsApp, Instagram) and voice APIs to client CRMs.
- Designed comprehensive technical documentation, database schemas, and standard operating procedures (SOPs) for small businesses and independent clients.

### Decathlon

Apr 2026 - Present

#### Stock Handler & Customer Service Associate

Blida, Algeria

- Delivered frontline customer service to a diverse, multicultural retail clientele in a high-volume international brand environment.
- Managed stock replenishment, inventory precision, and order logistics under strict operational deadlines.
- Maintained composure, diplomacy, and fast problem-solving during peak retail rush periods.

### WeeWee Delivery

Feb 2025 - Dec 2025

#### Customer Service & Stock Handling

Blida, Algeria

- Assisted 80+ customers daily with shipment inquiries, order tracking, and delivery requests in a fast-paced logistics hub.
- Resolved delivery escalations and operational delays diplomatically with high customer satisfaction ratings.
- Managed inventory staging and package dispatches with zero loss tolerance.

English Teacher

Blida, Algeria

- Instructed 120+ students across varied age groups, achieving measurable improvements in English communication and fluency (90% improvement rate).
- Adapted instructional delivery dynamically for diverse linguistic and cultural backgrounds.

EDUCATION

**Master's Degree in English Studies (Linguistics & Cross-Cultural Communication)** [University of Blida 2](#) 2024 - 2026 (In Progress)  
Postgraduate research in linguistic methodologies, advanced syntax, phonetics, and cross-cultural communication.

**Bachelor's Degree in English Studies** [University of Blida 2](#) 2022 - 2024  
Comprehensive foundation in English literature, linguistics, academic writing, and pedagogical theory.

CERTIFICATIONS

CPR, AED and First Aid [Alison](#) 2026

SKILLS

**Languages & Frameworks:** C#, .NET (ASP.NET Core, Desktop), C / C++, JavaScript (ES6+), TypeScript, Python, HTML5, CSS3  
**Backend, Databases & APIs:** RESTful APIs, Webhooks, SQL (PostgreSQL, SQLite, MySQL), Entity Framework Core, Node.js, Git / GitHub  
**Systems & Automation:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Telephony & Voice APIs (LiveKit, Twilio SIP), Workflow Automation, CRM Integration  
**Languages:** Arabic (Native), English (C2 Proficient / Bilingual), French (B1), Spanish (B1)
